dedication

foreword

Within our limited means, we present this volume of the MIDLANDER *in the hope that when the present becomes obscure, each of you will find among these pages at least one link to bridge the interval of years and afford a partial sketch which will enable you to fill in more realistically all the fun, experience, and association which have made your years at T. S. C. interesting and worth while to you.*

TRAINING SCHOOL

Across the street from the main college campus is the Training School. It is here that the child begins his education, and it is here that the prospective teachers take their first step in the field of pedagogy.

The purposes of the Training School are to create a friendly, lifelike atmosphere for the child in order that he may put forth his best effort in classroom activities, and to instruct the college students in a teacher's procedure with her students. It, with its faculty, makes up a very vital part of the college.

The FACULTY

ASSOCIATED

The Associated Student Body is an all-student organization in which it is possible to seek and to bring to light the needs and desires of the students as individuals, as groups, and as a unified body. It strives to unify interests, opinions, and methods of procedure both within the student body and between the student body and the faculty. The spirit of the Associated Student Body is that of individual responsibility for, and cooperative support of, the ideals that are in harmony with democracy.

The three branches of government — executive, judicial, legislative — give every student the opportunity to offer suggestions as to the best ways of accomplishing these aims.

THE MIDLANDER

The staff has endeavored to make this volume of THE MIDLANDER a vivid reflection of the various phases of life at T. S. C. during 1946-47. To publish it was our task; if at any time you find a picture or a word that will recall pleasant memories, our book has served its purpose, and we are the happier for our labors.

SUMMARY OF ATHLETICS

During the academic year of 1946-47, Middle Tennessee State College has grown numerically as well as athletically.

This is the first year since 1942 that we have witnessed the Raiders, our famous football team, play. Through the diligent efforts and cooperation of the student body, our team and coaches have experienced a successful football season. We have won six games, lost two, and tied one.

The basketball season followed very soon after our last football game. The Raiders gave our opponents stiff opposition, and the season closed with the Raiders winning twelve and losing seven games. They, indeed, deserve a big hand from every student.

The Raiderettes showed their traditional zeal and determination by taking on several tough opponents; they finished the season with eight games won and five lost.

This year M. T. S. C. has had a diversified program of athletics. Not only have the major sports, football and basketball, been played; but baseball, tennis, archery, and intramural teams have been organized. As a result of this type of athletic program, more students have an opportunity to participate in one of the most important activities of the college.
